

Kennis M (Kenny)

Assistant Professor of Computer Science & Engineering | AI & Full-Stack Developer

Email: kennizkennith777@gmail.com | LinkedIn: [linkedin.com/in/kenniz](https://www.linkedin.com/in/kenniz) | GitHub: github.com/kenny-777-tech

PROFESSIONAL SUMMARY

Passionate Computer Science & Engineering Educator and Developer with strong expertise in Artificial Intelligence, LLM applications, and Full-Stack Development. Proven track record of developing intelligent systems and web applications complemented by practical industry internship experience. Currently serving as an Assistant Professor, dedicated to mentoring the next generation of engineers while active in building innovative, real-world digital solutions.

EDUCATION

M.Tech in Computer Science & Engineering	Expected 2026
<i>Academic Institution</i>	
B.Tech in Computer Science & Engineering	2024
<i>Academic Institution</i>	

ACADEMIC & PROFESSIONAL EXPERIENCE

Assistant Professor of Computer Science & Engineering	2026 – Present
<i>Academic Institution</i>	
• Deliver lectures and conduct lab sessions for undergraduate and postgraduate Computer Science courses. • Mentor students in final year capstone projects, focusing on AI/ML applications and modern web development architectures. • Curate academic materials, conduct examinations, and support departmental administrative tasks.	
AI / Software Intern	2025
<i>Ember Quest Technology</i>	
• Designed and built an LLM-based conversational chatbot using Streamlit and Python. • Integrated advanced AI models with a responsive, user-friendly frontend interface, boosting user interaction.	
Java Developer Intern	2024
<i>Rooman Technologies</i>	
• Developed scalable web applications utilizing Java Core, Servlets, and MySQL databases. • Worked closely in teams to optimize database queries, improving application load performance and user engagement by 20%.	
Full Stack Developer Intern	2023
<i>Karunadu Technologies Pvt Ltd</i>	
• Built robust backend services and web pages using ASP.NET, C#, and SQL Server. • Implemented modular designs that improved system efficiency and reduced debugging time by 15%.	

TECHNICAL SKILLS

Programming: Python, Java, C#, C

Web Technologies: HTML, CSS, JavaScript, React JS, ASP.NET, Streamlit

Databases & APIs: MySQL, Oracle SQL, SQL Server, RESTful APIs, Firebase

Tools & IDEs: Visual Studio Code, Visual Studio, Eclipse, Android Studio, Git

PROJECTS & ENTREPRENEURSHIP

AI Doctor with Voice & Vision | *Python, AI/ML, Speech Recognition, OpenCV*

- Developed a smart multimodal assistant that processes voice commands and visual input for basic health diagnostics.

DeepFake Detection System | *Python, Deep Learning, PyTorch/Keras, CNNs*

- Built a deep learning model to accurately identify facial manipulations and AI-generated content in digital media.

Co-Founder, Dipniz Blooms | *2024 – Present*

- Co-founded an online floral delivery brand. Designed the branding, web footprint, and operational workflow to deliver custom floral arrangements.
